

HIGHLANDER

ENGINEERING SERVICES, PLLC

*Design & Construction
Engineering Solutions*

Performed structural design and served as structural engineer of record for a new bank branch in a historic section of an upstate New York Village. Primary responsibilities included design of gravity and lateral frames and foundations. Several building configurations were evaluated including multiple story with full and partial basements, elevator, as well as multiple framing systems.

Work progressed on a fast track basis with the time from preliminary design until occupancy of less than 12 months.
