

HIGHLANDER

ENGINEERING SERVICES, PLLC

**Design & Construction
Engineering Solutions**

Highlander prepared a study to determine the feasibility and impact of expanding an existing emergency room at an upstate New York Hospital. The scope of services included:

1. Meet with hospital personnel to determine the requirements and space prioritization;
2. Develop preliminary drawings showing the floor and site plans for the proposed expansion;
3. Generate an order of magnitude cost estimate;
4. Prepare a study findings report for the proposed expansion; &
5. Present findings to hospital personnel.

Hospital Emergency Room Expansion Study
